Re: FY 2023 Allocation Carryover Funding

The MACC recently received **\$1,028,798** (\$1,002,774 STP & \$26,024 STP Flex) in Allocation Carryover from MDOT. These funds must be spent in FY23.

The MACC has created suggestions as to how the new funds may be dispersed. Again, these are MACC suggestions and not final.

PLEASE review the attached spreadsheets for a much more in-depth breakdown. The PDF spreadsheets may be difficult to read since they are so large. I have also attached them in Excel form in the original TAC Packet Email.

OPTION ONE:

- Spend **\$192,000** on ACRC JN: 206323 to make it 80/20
- That leaves **\$836,798** to spend on Illustrative List projects

AND/OR

- We can also discuss bringing a FY24 job forward to FY23. FY24 funding would then be Advanced Construct.

OCRC JN: 206128 & 206145 are a part of the Federal Aid Buyout Program. Typically, jobs are locked once in the program; no changes can be made. However, as of this morning, I was told they *are* eligible to receive new funding but the amount has not been disclosed. There may be a cap on how much new funding the jobs can receive. We should know more information by the time of the meeting and can further discuss it then.

OPTION TWO:

- Spend **\$192,000** on ACRC JN: 206323 to make it 80/20
- Spend **\$1,000** on MACC JN: 206322 to make it 80/20
- Spend **\$141,946** on Holland Twp. JN: 206345 to make it 80/20

- Spend **\$326,611** on Laketown Twp. JN: 206346 to make it 80/20
- That leaves **\$367,241** to spend on Illustrative List projects

AND/OR

- We can also discuss bringing a FY24 job forward to FY23. FY24 funding would then be Advanced Construct

Traditionally, the MACC has not funded non-motorized projects.

Below is the Illustrative List

Re: Public Participation Plan (PPP)

The MACC recently updated its 2018 PPP and is looking to move it into the Public Comment Period. Since this is a longer document, it will be attached to the original TAC Packet email, rather than included in the Packet itself.
