

US-31 Reconstruction and Bridge Improvements

Holland, March - November 2016

What Is Being Done?

US-31 will be reconstructed between 8th Street and Quincy Street and widened to three lanes in each direction between Quincy Street and Lakewood Boulevard. The US-31 bridges over Lakewood Boulevard, CSX Railroad, the Macatawa River, and I-196 Business Loop (BL) (Chicago Drive) will be improved.

When Will This Be Done?

Work will begin this March with a target completion date of this November. Work will be suspended from May 3 to May 15 for the Tulip Festival. Minor bridge work over Lakewood Boulevard and I-196 BL (Chicago Drive) will be completed in spring 2017.

How Will Traffic Be Affected?

Pedestrian and bus routes will be accommodated throughout the project.

During Stage 1 (March – Tulip Time), traffic will be maintained with lane and shoulder closures.

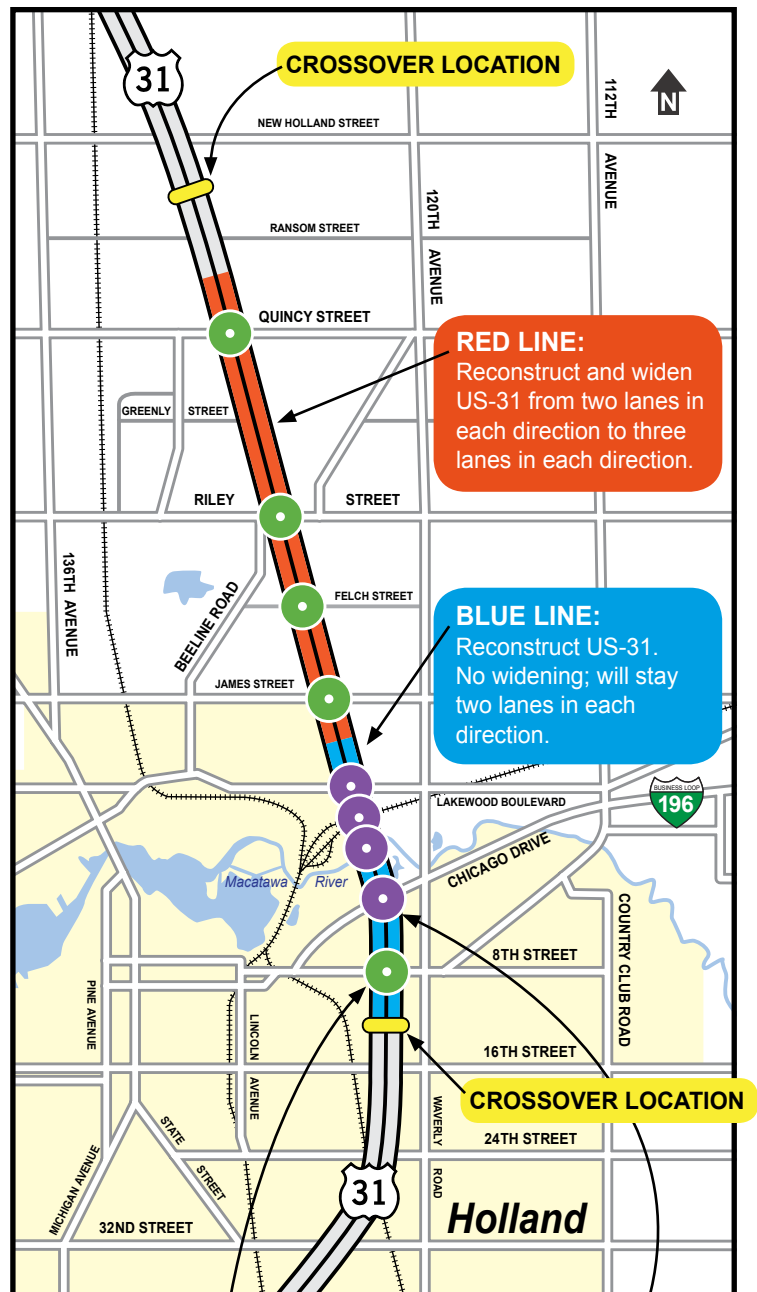

During Stage 2 (mid-May through mid-August), all southbound US-31 traffic will be crossed over onto northbound US-31 near New Holland Street and then crossed back onto the southbound side near 16th Street.

- Within the crossover, there will be no left turns allowed from or onto US-31. In addition, there will be no access directly to Lakewood Boulevard or Chicago Drive for southbound US-31 traffic.
- Eastbound and westbound side street traffic will be closed and detoured for a period of four days at each intersection to allow for reconstruction.

During Stage 3 (mid-August through mid-November), northbound US-31 traffic will be crossed over onto the newly constructed southbound side of US-31 near 16th Street, and then crossed back onto the northbound side near New Holland Street.

- Within the crossover, there will be no left turns allowed from or onto US-31. In addition, there will be no access directly to Lakewood Boulevard or Chicago Drive for northbound US-31 traffic.
- Eastbound and westbound side street traffic will be closed and detoured for a period of four days at each intersection to allow for reconstruction.

For up-to-date information on traffic restrictions, check www.michigan.gov/drive.
